

BECOME AN EXHIBIT SPONSOR

Support Atlantic White Shark Conservancy's NEW Shark Center in Provincetown as an exhibit sponsor. Your sponsorship directly funds our work to research and conserve white sharks while promoting public safety and education.

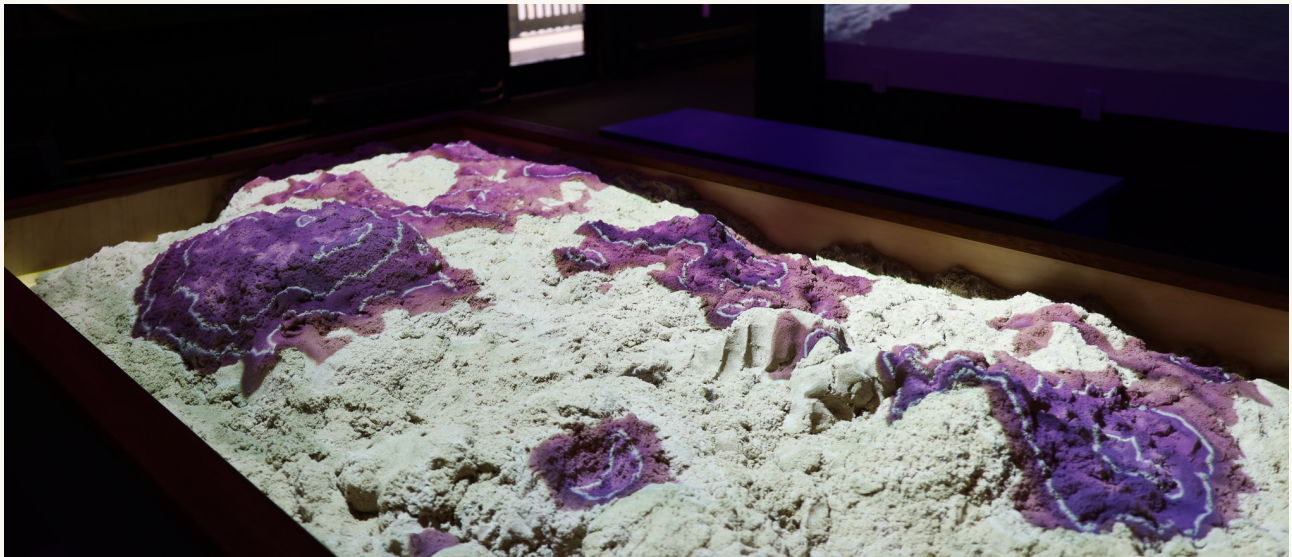

Opportunities start at \$3,000 and include sponsorship recognition within the exhibit.

INTERACTIVE SIMSCLUPTURE \$20,000

This interactive experience will provide visitors with an understanding of how white sharks and seals are utilizing the inshore waters off Cape Cod. A collaborative research effort is underway to better understand local white shark inshore movements, and this exhibit explains how that work is taking place.

THE IMPORTANCE OF CATS TAGS \$4,000

Technology improvements in recent years have led to exciting developments in tags. The use of the CATs tag is allowing us to have a 'Shark's Eye' view of the world. This exhibit outlines some of the unique observations that have been made through the use of this tag.

SHARK STORIES

\$6,000

Scientists always start their work with a question. This video experience will be narrated by one of the white shark researchers who will share the questions the team has been seeking out answers to. Video will display the action that takes place out on the water, giving visitors an up-close look at what it takes to be a shark scientist.

SHARK JAWS

\$8,000

White sharks are the most talked about shark in our ecosystem, they are not the only species though. This exhibit will shine a light on some of those other species and share about age and growth research projects taking place.

SHARK CAGE THEATER

\$10,000

To provide visitors with a true underwater experience, we are creating an interactive lightshow to illustrate what it is like to be underwater. Voiceovers from shark researchers from around the world will guide this experience and what it feels like to explore the underwater world.
